

## FEDERAL ENGINEERS RAZE BUILDINGS TO GET CLEAR VIEW OF ARSENAL

FOUR SOLID BLOCKS TO BE  
BLOWN UP BY DYNAMITE  
TO PERMIT ARTILLERY  
FIRE CONCENTRATED  
ON ARSENAL.

### OUTCOME IS UNCERTAIN

Fighting Continues During the En-  
tire Day—Both Sides Apparent-  
ly Well Equipped With  
Ammunition.

[BY ASSOCIATED PRESS.]  
City of Mexico, Feb. 14.—The gov-  
ernment was reported during the  
morning to be preparing to raze with  
dynamite four solid blocks consisting  
mostly of residences, just east of the  
rebel positions between the arsenal  
and the national palace to obtain a  
better sweep for the federal arti-  
llery fire.

The buildings in this doomed sec-  
tion are constructed wall to wall and  
the district is densely populated.  
Residents were warned during the  
night to evacuate their homes. All  
moved out with nothing but their  
personal belongings.

Federal engineers this morning  
began placing a series of mines  
charged with dynamite beneath cer-  
tain houses between the national  
palace and the arsenal. The explo-  
sion of these is to clear a passage  
for the federal artillery. The arti-  
llerymen will direct their fire  
against Diaz and his army in their  
positions about the arsenal.

General Huerta, federal commander,  
declared that with a flat trajectory  
the projectiles from the mortars  
would soon demolish the arsenal. For  
this purpose it was necessary to de-  
stroy the houses before attempting  
to dislodge the rebels.

Many Refugees.  
Long before daybreak a steady  
stream of refugees, for the most part  
belonging to the lower classes, but  
also comprising many of the better  
element, poured out of the densely  
populated district in the neighbor-  
hood of the rebel lines. Orders had  
been given to the government troops  
not to oppose the flight of the  
district by the non-combatants.

Sharp Firing.  
At about nine o'clock the rebel  
gunners turned their attention away  
from the national palace and onto the  
federal batteries near the British le-  
gation where the government gun-  
ners were doing effective work.

Federals Slower.  
The fire from the rebel batteries  
kept up very rapidly throughout the  
morning, but at about ten o'clock a  
decrease was noted in that from the  
royal artillery.

Edging Nearer.  
Three different engagements in the  
streets were precipitated by the edg-  
ing in of the federal forces toward the  
rebel positions. In each of them both  
sides played safe after a sharp  
exchange of sniping fire and a vicious  
display of machine guns.

Bombard Palace.  
Felix Diaz late in the morning is-  
sued a notice that he was about to  
increase the fury of his bombardment  
of the national palace. He warned  
non-combatants to withdraw from the  
danger zone. More persistent firing  
on the palace then began.

Federal Tired Out.  
About noon some struggling bands  
of federal soldiers passed the United  
States embassy. It was believed  
they were deserters and the impres-  
sion grew that some of the govern-  
ment troops were refusing to contin-  
ue fighting.

Pick Up Wounded.  
Just before noon the White Cross  
Society endeavored to arrange a  
truce for two hours in order to col-  
lect the dead and wounded. The fed-  
eral fire began less intense and the  
rebel artillery also slackened slight-  
ly.

Want Intervention.  
In the Colonia Juarez last night a  
gathering of Mexican women of the  
better class made no secret of their  
desire for intervention. Their formal  
statement of their feeling was as fol-  
lows:

Growing Worse.  
Conditions generally in the capital  
are steadily growing worse. All busi-  
ness, both public and private, except  
that connected with the war, has  
ceased. Even the general postoffice  
has closed its doors and many of its  
employees are carrying rifles in the  
ranks of the federal army.

In Darkness.  
The city was in almost total dark-  
ness throughout the night owing to  
the cutting of the electric cables by  
flying shells. Today provisions of all  
kinds were scarcer than ever and  
prices soared to unheard of heights.  
Robberies, burglaries and petty crimes  
of all kinds are on the increase owing  
to lack of police protection and am-  
munition.

Sanitary Conditions.  
The disposition of garbage has be-  
come a serious problem and the chang-  
ing breezes bring home to the people  
the carcasses of hundreds of  
horses killed during the street fight-  
ing of the past week still lie in the  
gutters.

Rebels Well Armed.  
The rebels have ammunition enough  
to continue the warfare for several  
days at least. They also have many  
more machine guns than they have  
yet brought into use. Their losses  
hitherto have been comparatively  
light. Their food supplies are suffi-  
cient.

Paid by the Day.  
The men are being paid regularly  
\$2.00 a day and a large amount of  
money appears to be available for

their cause. The marksmanship of  
the rebel artillery during all the fight-  
ing has been excellent and their abil-  
ity to sweep all approaches to their  
positions with machine guns makes it  
appear inevitable that any attempt by  
the Madero forces to rush the arsenal  
would result in heavy slaughter.

Started Early.  
The rebels opened the battle today  
at a quarter to six when they started  
firing in the direction of the federal  
concentration point. It had been ex-  
pected that the federals would attack  
first.

Demands Surrender.  
President Madero this morning sent  
another ultimatum to Felix Diaz de-  
manding his surrender, and the reply  
came in the shape of a number of  
solid shot from the insurgents' big-  
gest guns.

The first shots from the rebel lines  
quickly were followed by a series of  
others in rapid succession.

Machine Guns.  
Then the machine guns and rifles  
began their whizz and patter, the fire  
being concentrated where government  
troops were gathering. The federal  
guns did not delay in making vigorous  
reply.

Steady Roar.  
By seven o'clock the firing had be-  
come a steady roar. All around the  
arsenal the flash of field guns and the  
quick-firers was incessant. Federal  
officers declared their men were pre-  
paring to make an advance.

Many Refugees.  
A constant stream of refugees, most  
of them Mexican citizens, was ob-  
served carrying bundles and scurrying  
toward the suburbs from the densely  
populated district between the arsenal  
and the national palace.

Pray in Churches.  
In many of the churches special  
prayers were said by the clergy for  
the restoration of peace to the capital.  
Thousands of refugees knelt in the  
old edifices and joined in the prayers,  
at the same time trusting not a little  
to the heavy walls for protection  
against flying projectiles.

Will Not Surrender.  
Diaz made preparations to contest  
every inch of the advance of the gov-  
ernment troops as he indicated he  
would do in his reply to the presi-  
dent's ultimatum. He told the gov-  
ernment that his followers were pre-  
pared to die at their posts rather than  
surrender. They would not ask for  
clemency.

Nuns Killed.  
Soon after eight o'clock a convent  
five blocks beyond the national palace  
was wrecked by a shell from a rebel  
gun and a number of inmates killed.

Schrapnel Used.  
Many schrapnel shells from the rebel  
artillery fell around the cable office,  
the American Club and other build-  
ings in that vicinity. Others struck  
the national palace.

Constant Fire.  
Two federal batteries of five guns  
each stationed near the British le-  
gation, poured a constant fire on the  
arsenal. Another federal battery pos-  
ted on San Juan de Letran street  
joined the bombardment.

## TWENTY-FIVE CASES ON JURY CALENDAR

Number of Actions to be Tried Before  
Jury at February Term of  
Circuit Court.

Up to three o'clock this afternoon  
about twenty-five cases for trial by  
jury at the February term of the cir-  
cuit has been filed at the office of the  
clerk of the court. Tomorrow after-  
noon is the time set for closing the  
calendar and a number of cases will  
probably be entered before that time.  
The calendar will be called by Judge  
Grimm on Monday, Feb. 24, and the  
trial of the jury cases will begin a  
week later on March 6th.

### O'ROURKE GETS DAMAGES IN SUIT FOR LIBEL

London, Feb. 14.—Thomas O'Rourke  
the New York promoter of boxing con-  
tests was today awarded \$250 dam-  
ages in the King's bench division of  
the high court in a suit for libel  
brought against the proprietors of  
Boxing. The newspaper published  
articles alleging that O'Rourke had  
arranged the results of various box-  
ing competitions before hand.

### FORMER PRISON FOREMAN MEETS SUDDEN DEATH

Sheboygan, Feb. 14.—J. De Voss of  
Waupun, retired foreman of the state  
penitentiary died here yesterday. He  
fell in a faint while riding on an in-  
terurban car, and died before help  
could reach him. He was about 65  
years old.

### PLAN MEMORIAL EXERCISES FOR LATE VICE PRESIDENT

Washington, D. C., Feb. 14.—Final  
arrangements were completed today  
for the memorial service to be held  
in the senate tomorrow in honor of  
the late Vice President Sherman. The  
exercises will be attended by the Presi-  
dent and his cabinet, the justices of  
the Supreme Court, the members of  
both houses of Congress and many  
others prominent in official life in the  
capital.

To Finish Test: R. H. Johnson, W.  
H. McEachron, and P. Korst, the four  
university students who are making  
the test at the electric light plant,  
have returned to Janesville to com-  
plete their work of testing the big tur-  
bine. They will work Saturday and  
return to their studies Monday.

## ASKS APPROPRIATION OF QUARTER MILLION

Stout Institute at Menomonie  
Comes Forward With Huge De-  
mand to Care for "Immedi-  
ate Needs."

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., Feb. 14.—The trust-  
ees of the Stout Institute at Menomo-  
nie, Wis., will ask the legislature for  
an appropriation of \$265,000 for  
immediate needs. The state is now  
paying \$20,000 annually towards its  
maintenance, about one-fifth of the  
annual expenses. No request for in-  
crease of the maintenance fund is  
made.

The institution is greatly over-  
crowded, according to a statement is-  
sued by President L. D. Harvey, who  
estimates that 200 prospective stu-  
dents of the domestic arts depart-  
ment alone were turned away last  
year for lack of accommodations. Al-  
ready the advance enrollment for  
1912-1913 has reached the limit. In  
the household arts department, the  
present enrollment shows an increase  
of nearly 90 per cent over the same  
semester a year ago.

The reasons given for the larger  
additional appropriation are: More  
room for shop and laboratory instruc-  
tion, a demand for wider range of  
work through the addition of more  
courses, congested conditions in the  
manual training department, and the  
department of domestic economy;  
lack of library and study room, lack  
of a suitable auditorium, and need of  
grounds for campus and further de-  
velopment.

"These buildings," says President  
Harvey, "are adequate for the ac-  
commodation of only 200 students.  
The present board is confronted with  
the problem of trying to reach for  
a half times that number, while  
many who are seeking admission are  
turned away each year. The develop-  
ment of industrial education in  
Wisconsin through the wise provi-  
sion made by the last legislature for  
the establishment of a system of con-  
tinuation schools makes an added de-  
mand upon the institute for teachers.

Further Conference  
IN RAILROAD FIGHT

## FURTHER CONFERENCE IN RAILROAD FIGHT

No Settlement Thus Far Reached Be-  
tween Companies and Engi-  
neers But Discussion Con-  
tinues.

[BY ASSOCIATED PRESS.]  
New York, Feb. 14.—Though north-  
eastern railroads admit that it made  
concessions the fact that further con-  
ferences were to be held today with  
the federal mediators seemed to in-  
dicate that there was still hope of  
breaking the deadlock existing be-  
tween the brotherhood of locomotive  
firemen and engineers of the fifty-  
four eastern railroads on the question  
of higher wages and better work-  
ing conditions. None of those concern-  
ed in yesterday's conference would say  
that any progress had been made,  
but President Carter of the firemen  
denies that he has decided on a  
strike call, although it is known that  
the call is ready.

The King, surrounded by a brilli-  
ant uniformed staff, occupied a seat  
beneath the great dome. The other  
parts of the cathedral were filled by  
the general public to the fullest ex-  
tent of the accommodations.

The service was a simple but solemn  
one. It included the playing of the  
"Dead March" from Saul in which the  
great cathedral organ was accom-  
panied by a military band.

The service concluded with the  
hymn "Jesus Loves My Soul." In  
the closing collects the names of the  
five dead explorers were included.

## TRIAL OF ALLEGED BANDITS CONTINUED

Harry Carlson, James O'Neill, and  
George D'Lee Were Arraigned in  
Chicago Court Today.

[BY ASSOCIATED PRESS.]  
Chicago, Feb. 14.—Harry Carlson,  
James O'Neill and George D'Lee,  
members of an alleged gang of auto-  
mobile bandits, were arraigned today.  
Their cases were continued under  
bond to the next session, \$15,000. O'Neill  
and D'Lee were charged with eighteen  
robberies and Carlson with nine.

## FIVE MEN INDICTED ON BRIBERY CHARGE

Special Grand Jury Summoned at  
Charleston Returns Indictments  
Containing Four Counts.

[BY ASSOCIATED PRESS.]  
Charleston, Feb. 14.—The special  
grand jury summoned by Judge Henry  
D. Blair, to consider the charges of  
bribery in connection with the United  
States memorial campaign this after-  
noon returned five indictments. The  
indicted are: Delegate David Hill, J.  
E. Ashbury, S. O. Rhodes and Rath  
Duff and Senator B. A. Smith. The  
men are charged with feloniously re-  
ceiving bribes. There were four  
counts in each indictment.

### SEEKS A DAILY REPORT FROM SUPERINTENDENTS

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., Feb. 14.—County  
superintendents of schools are obliged  
to give an account of their daily  
work by the terms of a bill offered  
by Assemblyman J. D. Miller of  
Menomonie. After stipulating that  
the county superintendent shall be  
paid monthly one-twelfth of his sal-  
ary, the bill provides that before  
drawing his monthly stipend he  
shall file with the clerk of the coun-  
ty board a statement of the number  
of hours each day spent in the per-  
formance of his different duties dur-  
ing the month for which the salary is  
due.

Mr. Miller also has a bill to abol-  
ish the municipal courts at Colfax,  
Knapp and Boyceville, all in Dunn  
county, leaving only one such court,  
that at Menomonie. He maintains  
that with four municipal courts in a  
county of only 25,000 population,  
there is unnecessary and expensive  
duplication, and he points for argu-  
ment to Dane county, the second lar-  
gest in the state, which has but one  
municipal court.

## NEW YORK GAMBLER KILLS HIS DAUGHTER IN SHOOTING AFFAIR

James Purcell, Witness in Police Graft  
Probe, Surrenders Himself After  
Violent and Fatal Quarrel  
In His Home.

[BY ASSOCIATED PRESS.]

New York, Feb. 14.—James Purcell,  
the veteran gambler, who testified be-  
fore the aldermanic committee last  
week that he had paid police graft  
over a period of seventeen years, quar-  
reled today with his wife in their  
apartment and began shooting.  
Mrs. Purcell faintly but wild bul-  
lets struck their 13-year old daughter,  
Agnes, who lay cowering in bed, and  
killed her almost instantly.

Thinking he had murdered both  
women Purcell surrendered himself to  
the police and was locked up. The  
gambler was so hysterical when he  
staggered into the police station that  
he was unable to give a coherent ac-  
count of the affair.

He and his wife had quarreled all  
night, he sobbed, until at last he lost  
control of himself and rushed at her  
with a revolver. Four shots were  
fired, two of which struck the girl.  
One pierced her breast and right arm.  
Another plowed through her left arm.  
Her body was taken to the morgue.

The tragedy may have an important  
bearing on the graft investigation now  
being pushed by District Attorney  
Whitman. Purcell's testimony given  
last Friday resulted in the suspension  
of two police captains and his story  
was being counted on as the basis of  
indictments.

With him in a cell charged with  
homicide his testimony may be invali-  
dated. Mr. Whitman was apprised of  
the situation and will hold a confer-  
ence with the prisoner today with a  
view to determining whether there is  
back of the tragedy anything that does  
not appear on the surface.

## ALL BRITAIN PAYS RESPECT TO MEMORY OF CAPTAIN SCOTT

St. Paul's Cathedral at London Scene  
Of Service But Impressive  
Services in Honor of  
Explorer.

[BY ASSOCIATED PRESS.]

London, Feb. 14.—The British na-  
tion today paid its last respect to  
the memory of Captain Robert F.  
Scott, and his heroic companions who  
died in the wilds of the Antarctic after  
reaching the South Pole.

A great memorial service was held  
in the cathedral of St. Paul's in the  
center of the metropolis. It was at-  
tended by people of every walk in life  
from King George in the uniform of  
an admiral of the fleet down to the  
common laborer.

The King, surrounded by a brilli-  
ant uniformed staff, occupied a seat  
beneath the great dome. The other  
parts of the cathedral were filled by  
the general public to the fullest ex-  
tent of the accommodations.

The service was a simple but solemn  
one. It included the playing of the  
"Dead March" from Saul in which the  
great cathedral organ was accom-  
panied by a military band.

The service concluded with the  
hymn "Jesus Loves My Soul." In  
the closing collects the names of the  
five dead explorers were included.

### PROTEST AT LIMITATION JUSTICES' JURISDICTION

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Feb. 14.—A printed  
protest against the passage of laws  
for the repeal of Chapter 423, taking  
away the jurisdiction of justices of  
the peace in actions of garnishment,  
of replevin, by attachment, and of un-  
lawful detainer, has come to mem-  
bers of the legislature from the Wis-  
consin federation of labor, by J. J.  
Handley, secretary.

### CENTRAL WHIST TOURNAMENT IS OPENED AT OMAHA

Omaha, Neb., Feb. 14.—More than  
one hundred devotees of the game of  
whist, representing numerous clubs in  
Illinois, Minnesota, Missouri, Iowa,  
Nebraska and other states, gathered  
in Omaha today for the nineteenth  
annual tournament of the Central  
Whist Association. The tournament  
will continue two days.

## BILL STRIKES BLOW AT RED LIGHT VICE

Measure Introduced Into Assembly  
Today Provides for Confiscation  
Of Property.

[BY ASSOCIATED PRESS.]

Madison, Feb. 14.—Confiscation by  
the state of houses of ill fame is pro-  
posed in a bill by Assemblyman Fred-  
ericks as a means for wiping out the  
"red light district" when owners of  
such houses are convicted of permit-  
ting them to be used for immoral pur-  
poses.

A bill by Assemblyman Sharpe pro-  
vides for a state board of education  
consisting of five members one of  
whom shall be the state superinten-  
dent ex-officio. The other four are  
appointed by the governor, but after  
the term of the first expires in 1916,  
the members are to be elected in al-  
ternate years for a term of eight  
years.

Removal for cause is vested in the  
governor. Each member shall receive  
\$5,000 annually, and a secretary \$2,500.  
Jurisdiction shall embrace all educa-  
tional schools, state universities, state  
mining and trade schools whose pre-  
sented governing agencies are to be  
abolished. Both branches of the leg-  
islature today received bills provid-  
ing for a woman suffrage amendment.

Senator Treasdale for the commit-  
tee on education and public welfare  
reported for passage his bill forbid-  
ding the sale of tobacco in any form  
to persons under sixteen years of age.

## GENERAL WOODFORD DIES AT NEW YORK

Well Known Publicist and Former  
Minister to Spain, Passes Away

After Short Illness.

[BY ASSOCIATED PRESS.]

New York, Feb. 14.—General Ste-  
wart L. Woodford, veteran publicist and  
former United States minister to  
Spain, died at his home in New York  
today. He had been ill for more than  
two weeks.

The General was 78 years old and a  
native of New York City. He was  
graduated a Bachelor of Arts from  
Columbia in 1854 and took his A. M.  
at Yale. Other institutions later in  
his life bestowed upon him honorary  
degrees for his distinguished services  
in public life.

He was in Spain as minister of this  
country when the Spanish American  
war was declared. As a young man he  
served with distinction through the  
Civil War. His first notable public  
work was his direction of the Hudson-  
Fulton celebration in this city.

## SEEK TO REFORM THE APPROPRIATION PLAN

Democrats in The House Would Make  
Changes in Methods of Handling  
Money Disposal.

[BY ASSOCIATED PRESS.]

Washington, Feb. 14.—The conges-  
tion of appropriation bills in the  
house has put democratic leaders to  
urging a sweeping reform in the ap-  
propriation system and seeking a way  
of extricating the house from its pre-  
sent position without making a re-  
cord for expenditures.

With half a dozen of the main ap-  
propriation measures piled up for  
action and the aggregate of appropri-  
ation threatening to run far over the  
billion mark, the leaders find them-  
selves on the "two horns of a dilem-  
ma."

Either the appropriation bills as  
framed with their vastly increased  
totals must be rushed through in the  
few remaining days of the session, or  
the house must go on record as being  
unable to complete its work, and al-  
low the appropriation bills to go over  
until the special session.

Neither course is taken as fully  
agreeable. Therefore, the leaders are  
demanding that before the next house  
session down to make its appropri-  
ations a system similar to the budget  
system proposed by President Taft be  
evolved to provide for the division of  
available public funds to the various  
purposes for which money must be ex-  
pended.

The annual pension appropriation  
bill carrying \$180,300,000, an increase  
of \$15,000,000 over last year, was  
taken up by the house today. The  
bill carries a greater total than any  
annual pension bill ever reported to  
the house. The increase is caused by  
the new Sherwood pension law.

The house today passed the diplo-  
matic and consular appropriation bill  
carrying \$3,764,642, an increase of  
\$180,125 over last year.

A constitutional lawyer, an econo-  
mist, an accountant, and an engineer,  
should work with the Interstate Com-  
merce Commission in making a phys-  
ical valuation of railways, according  
to Prof. J. R. Commons of the Uni-  
versity of Wisconsin, who testified to-  
day before the senate interstate com-  
merce committee.

### INJURIES TO DREADNAUGHT ARKANSAS INSIGNIFICANT

Washington, Feb. 14.—The dread-  
naught Arkansas, which ran on a cor-  
al head near Ceiba Reef, near Car-  
marosa, Cuba, yesterday, has proceed-  
ed to the Guantanamo naval station.  
Reports to the navy department say  
the ship's injuries are comparatively  
insignificant.

### IONIA, MICHIGAN FACTORY WAS DESTROYED BY FIRE

[BY ASSOCIATED PRESS.]

Ionis, Mich., Feb. 14.—The Ypsi-  
lanti Reed Furniture company, an in-  
stitution adjoining the state reforma-  
tory walls, in which convict labor was  
largely employed, was destroyed by  
fire today at a loss of \$265,000.

## WILSON'S DETECTIVE GUARD IS DOUBLED

Four Secret Service Men Guard Man-  
sion of President-Elect at  
Princeton.

[BY ASSOCIATED PRESS.]

Princeton, N. J., Feb. 14.—For  
some reason not made known, the  
guard of secret service men with  
President-elect Wilson was doubled  
today. Two operatives have been  
added to the guard almost constantly  
since election day, but a guard of  
four now permits a watch over the  
president-elect throughout the twen-  
ty-four hours. Hitherto there had  
been no one on duty at the Wilson  
home after midnight. The secret  
service men have a frame shack with  
a stove and chair opposite the Wil-  
son home and through its many win-  
dows they can see approaches from  
every side.

The governor had an appointment  
in Philadelphia today with his den-  
tist and planned to do some shopping  
in New York later.

## BANKER SURRENDERS OF HIS OWN ACCORD

New York Man Indicted For Contempt  
In Connection With Pujio In-  
quiry, Gives Himself up.

[BY ASSOCIATED PRESS.]

New York, Feb. 14.—George Garr  
Henry, of the banking firm of W. Salo-  
mon and Company of this city who  
was indicted for contempt by the fed-  
eral grand jury in Washington, for re-  
fusing to answer questions put to him  
by the Pujio committee in the money  
trust investigation, surrendered him-  
self today to United States Marshal  
Henkel. He said he would fight re-  
moval proceedings. He was released  
under \$2,000 bail, for a hearing next  
Thursday.

### BUILDING LOAN BUSINESS SHOWS A BIG INCREASE

Assets of These Concerns in Wiscon-  
sin Show Gain of Eighteen Per  
Cent During 1912.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., Feb. 14.—A flourish-  
ing condition of the building and  
loan associations in Wisconsin is re-  
ported in the annual report of State  
Banking Commissioner A. E. Knott  
on these concerns. The number in-  
creased from 57 to 61 in 1912. The  
aggregate assets of all increased \$1,  
245,147.50, a gain of 18.2 percent, the  
largest since the establishment of  
building and loan associations in this  
state. The total assets are \$8,692,  
394.00; number of members, 23,292,  
an increase of 2,367 for the year.  
Gross earnings of all associations  
were \$566,544.87, gross expense \$128,  
230, and aggregate net profits \$438,  
314.87.

Amendments to the building and  
loan laws are recommended as fol-  
lows: Limiting and defining the size  
or amount of loans to be made; pro-  
viding for a uniform statutory form  
of bond for fiduciary officers and bal-  
ing size of bond required on the  
monthly receipts, making clearer the  
provisions as to incorporating asso-  
ciations; prohibiting issuance of  
stock in fractional shares or partial  
withdrawal by endorsement on certi-  
ficates; defining the amount of stock  
to be held by any one person, mak-  
ing clearer the provisions as to de-  
claring and apportioning dividends;  
providing for automatic forfeiture of  
charter of associations failing to  
commence business within one year  
from date of incorporation; and pro-  
viding fees and expense for examina-  
tion of foreign associations which  
may be authorized to do business in  
this state.

## AFFIDAVITS FILED BY RECALL BACKERS

SIGNERS OF THREE PETITIONS  
HELD TO BE NON-VOTERS  
SUBMIT OATHS.

## CLERK MUST CERTIFY

To Sufficiency of Amendment—City Officers Deny Statement As To Number of Voters Who Are Tax-Payers.

City Clerk Hammarlund will make the next move in the action to bring about an election for the recall of Mayor Rathbun and Councilmen Cummings and Milwaukee in consequence of the filing late yesterday afternoon of affidavits by a large majority of those whose signatures on the petitions were rejected as those of non-voters, in which affidavits they assert under oath that they are qualified electors of the city of Janesville.

The law gives the promoters of the recall petitions ten days to amend them when such petitions are certified to the council as insufficient, but is silent as to what course the clerk shall pursue if the amendments submitted are found inadequate. It provides that if the petitions are found sufficient the clerk shall submit the same to the council without delay.

The ten days for amendment have now expired and in accordance with the evident intent of the law the certification of the petitions will be promptly forthcoming.

There is no question as to what the nature of the certification will be as other alleged defects in the petitions have not been remedied. There is no provision in the law for amendment after the prescribed ten days, so it is doubtful if evidence could be admitted as to the validity of the affidavits, should any of them be pronounced defective.

Affidavits numbering 180 were obtained from the 240 men whose signatures on the Cummings petitions were held to be not qualified voters, 183 from men signing the Rathbun petitions, and 177 from men who signed the Milwaukee petitions. These affidavits, if accepted, bring the number of qualified electors who signed the Cummings petitions up to 858, thirty-eight more than the number of signatures necessary. The numbers on the other two petitions will vary but slightly.

Attorney John L. Fisher, Attorney Frank Fisher, Peter Goodman and Charles Sykes constituted the committee that submitted the affidavits.

Denial that the recall promoters had at any time conferred with him as to what he would accept as sufficient amendment to the rejected recall papers was made by City Attorney W. H. Dougherty this morning when his attention was called to a statement attributed to him, and published in a morning paper. This statement was to the effect that he "had previously promised the Recall Committee that if they secured affidavits from the signers whose names were stricken from the lists, he would deem that fact sufficient proof as to the sufficiency of the recall petitions and take the matter up before the city council."

Furthermore, the city attorney can take no official action regarding the recall petitions except to act in an advisory capacity to the city clerk.

Twenty-eight hundred taxpayers in Janesville are women or minors if an assertion made by a member of the Recall Committee is to be accepted as a fact. This statement was that "of the entire number of voters in the city only five hundred are taxpayers, which brings the percentage of tax-paying voters signing the recall petitions up to forty per cent."

The number of tax receipts issued this year is over 3300, and of this number not less than fifteen hundred are qualified electors according to city officials familiar with tax-collectors. As not two hundred of the 3000 hundred odd men who signed the recall petitions are taxpayers, their proportion to the total number of taxpayers is not forty per cent, but nearer fourteen per cent.

The following is an exact copy of the affidavits signed by the one hundred and eighty voters whose right to vote was questioned:

STATE OF WISCONSIN, County of Rock, ss.

of the City of Janesville, County of Rock and State of Wisconsin, being first duly sworn on oath, says that he is one of the signers of the petition filed in the office of the City Clerk on January 25th, 1913, for the recall of Roy M. Cummings, a councilman of said City; that at the time he signed said petition he resided at and now resides at No. .... Street in said City; that he then had resided in the ..... Ward of said City for ten (10) days before the signing of said petition, and in the State of Wisconsin for one year next preceding the date of the signing of said petition; that he is a male person and was at the time of signing said petition twenty-one (21) years of age; that he at said time was a citizen of the United States and of the State of Wisconsin, and a qualified elector and at the time of the signing of said petition he was entitled to vote for a successor to the said Roy M. Cummings; that at the time he signed said petition there were no false fraudulent misrepresentations of any kind made to him, and that he was then a bona fide resident of said ward and city.

(Subscribed and sworn to before me this ..... day of February 1913.)

Notary Public for Wisconsin.  
My commission expires .....

Witness:

The communication appraising the City Clerk of the findings of the Special Recall Committee and filed at the same time as the affidavits was as follows:

To P. Hammarlund, City Clerk of the City of Janesville:

Sir—We, the undersigned representatives of the committee circulating the petition for the recall of Roy M. Cummings, a Councilman of said City hereby file with you and ask your consideration and examination of the one hundred and eighty affidavits hereby filed with you as City Clerk.

On February 4th you stated in your opinion filed with the mayor and councilmen of the city of Janesville as follows: "I further certify that upon careful investigation as to the electoral qualifications of the signers on this petition I find thereon two hundred and forty names of persons whose names do not appear on any poll or registration list in the city of Janesville; that I am unable to ascertain from any information obtainable that the persons bearing these names are electors in said city and for that reason I find they are not electors and are not entitled to be considered in determining the sufficiency of the petition."

In view of this statement the attorney representing the committee demanding the recall secured the affidavits herewith tendered and filed with you as City Clerk, and now having an undisputed list of eight hundred and fifty-eight voters demand that you certify and submit the said petition to the Mayor and Councilmen of the City of Janesville without further delay, in order that the said Council shall thereupon order and fix a date for the holding of said election.

The committee further report that of the remaining sixty names on the petition and which names represent persons disqualified by you, that they have been unable to call upon five of these people; a large number of whom are railroad men, traveling men and others at present out of the city, or whom they have been unable to find at home; and that out of the two hundred and forty persons disqualified by you as not being persons entitled to a vote this committee and their attorneys have been able to find only fifteen signers of said petition who are actually disqualified.

We request that after you have examined these affidavits you will inform our attorney, Mr. John L. Fisher, as to the sufficiency of said affidavits and so whether you will certify said petition to the mayor and councilmen of the city of Janesville as being sufficient to the end that an election may be called.

(Signed by the Committee.)  
Dated Janesville, Wisconsin, Feb. 13, 1913.

## GIVES AN ADDRESS ON TEACHING HEALTH

City Visiting Nurse Speaks to Missionary Society of Congregational Church—Character of Inspection.

Janesville was the first municipality to provide for the support of a visiting nurse, who gave a brief talk one of the latest cities in Wisconsin to provide for the services of one, said Miss Agnes Anderson, the city visiting nurse, who gave a brief talk on "Teaching Health in the Public Schools" before the Missionary Society of the Congregational church at their invitation yesterday afternoon. Medical inspection of public school children began in New York city about 1870, but it is only in recent years that it became widespread. Cities in twenty-five states and the District of Columbia now provide for such inspection. In most instances the visiting nurse is supported by private philanthropy acting through the medium of a visiting nurse association, but this method has serious disadvantages in that it requires great effort and involves uncertainty to raise the necessary funds.

The visiting nurse devoted the greater part of her talk to an explanation of her work in the public schools and the information she had obtained as the result of her inspection. Every pupil, she said, is given a thorough examination of the ears, nose, throat, teeth and glands of the neck. Children with enlarged glands are carefully watched and prompt attention advised. Where defects are found the parents are notified to take the child to the family physician or dentist.

Approximately one-third of the children thus far examined will probably have to leave school before the end of their course because of being backward as the result of defective physical condition. Five per cent of the children are anemic and undernourished. Children in such condition can not be expected to study well and keep up with their more vigorous classmates, nor can it be expected of those who are suffering from defective eyesight, hearing or loss of sleep due to toothache. Bad teeth are the cause of indigestion.

The nurse has found many children to be afflicted with adenoids and enlarged tonsils. These make the child take cold easily, and some times they produce continued colds. Operations for the removal of adenoids can be performed with good results at any time of the year. The nurse showed the ladies of the Missionary Society that the operation was a simple one and not to be feared. She also discussed the needs of the tubercular patients in the city and suggested that some means be found to assist the Associated Charities in furnishing them milk and eggs.

## MOTHER! WATCH THE CHILDREN'S BOWELS

IF CROSS, SICK, FEVERISH, BILIOUS OR TONGUE IS COATED  
GIVE DELICIOUS "SYRUP OF FIGS."

No matter what ails your child, a gentle, thorough laxative physic should always be the first treatment given.

If your child is feeling well, resting nicely, eating regularly and acting naturally it is a sure sign that its little stomach, liver and 30 feet of bowels are filled with foul constipated waste matter and need a gentle, thorough cleansing at once.

When cross, irritable, feverish, stomach sour, breath bad or your little one has stomach-ache, diarrhoea, sore throat, full of cold, tongue coated; give a teaspoonful of Syrup of Figs and in a few hours all the clogged up waste, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious fig taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse if Cross, Irritable, Feverish, Tongue anything else offered.

## FORD--Natty Clothes

FRIDAY.

BY C. A. VOIGHT.

A scheme is on foot to organize an all-star cast of boxers which will tour the country under the management of "Jack" Curley, Tom Jones and "Billy" McCarty, manager of Luther McCarty. Jack Curley, a veteran in the management of such affairs, is the original promoter. The proposed troupe is to consist of Johnny Kilbane, Luther McCarty, Johnny Coulon, Willie Ritchie, Al Voight, and others. The scheme is for these renowned pugilists to give exhibitions. They have been offered salaries.

Mrs. Battling Nelson is proving to be a very useful wife. Before she married the ex-champion she was cartoonist and reporter for a Denver paper. Now she is turning her accomplishments to the aggrandizement of her husband, by making cartoons of him and writing her opinion of the other lightweight fighters. She says But could clean up the whole bunch if he went after 'em.

Sixteen well-known followers of the glove game in San Francisco were recently asked to name the greatest fighter of all time, irrespective of weight. Eight named Robert Fitzsimmons, three Joe Gans, two Jim Corbett, while Peter Jackson, Kid Lavigne and Abe Attell came in for one apiece. Nobody named Jim Jeffries.

Johnny Kilbane, the Cleveland fighter, takes rank with Padarewski, Caruso, Harry Lauder and all the other

great artists of the present time in the matter of insurance. Johnny recently went into the insurance business and sold himself a ring accident policy first crack. He will get \$500 a week if he breaks an arm or is out of the ring from any physical injury.

There will be considerable weeping and gnashing of teeth in Pittsburgh next fall if the Pirates fail to carry off the National League pennant. The fans of that town have it figured out that Fred Clarke has about the best team in the circuit and that he should win at a walk. Clarke as it happens is the only manager not making any claims. Being an old hand at the baseball game, he realizes that many things may happen to stop him from landing first, regardless of the strength of his team.

The Philadelphia Nationals have signed up a real professor for 1913. He is Hugo T. Wedell a member of that institution's ball team. The professor is an expert for the third sack position, together with Robert and Dolan.

Dr. Joseph A. Kelly, director of the Kansas City A. C., says Luther McCarty is a faster pugilist than Jim Corbett ever was. "That fellow will be champion for a long time," says Kelly. "Look at his shoulders and arms and the way he tapers. He's just a kid, too, and will fill out, take on more weight, grow more powerful. He'll keep his new championship belt for several years to come and perhaps for a few more."

## RECORD SKI JUMPS LOOKED FOR SUNDAY

National Tournament at Ironwood Attracts Famous Ski Jumpers From Throughout Northwest.

[SPECIAL TO THE GAZETTE.]  
Ironwood, Mich., Feb. 14.—Many famous ski jumpers have arrived in anticipation of the ninth annual championship tournament of the National Ski Association of America, which is to be held here tomorrow and Sunday. A record-breaking meet seems to be assured. This was the statement made by the officials of the local club today after they had checked up the list of entries. Star performers of more than a score of clubs scattered throughout the Northwest will be seen in competition, rivaling the comets in flights through space. The program provides events for both amateurs and professionals.

The slide here is said to be the best in the world. Some enthusiasts of the sport confidently declare that the record jump of Eric the Red will be beaten at the coming tournament. Eric, back in the eleventh century, put on his skis, slid down the highest peak of the Kjolous and according to tradition, cleared the Atlantic ocean and landed on the American continent. The man who beats Eric will have to land somewhere between Tierra del Fuego and the South Pole.

## BLUE JAYS WORST CANARIES IN TWO BOWLING MATCHES

Lead by a Score of 2367 to 2209—Will Play With Swallows Next Monday Evening.

The Blue Jays showed their skill at hurling the wooden sphere last night by defeating the Canaries in two bowling matches at the Hockett alleys, their lead being by a score of 2367 to 2209. Peschel rolled the high score with 201 points. The Blue Jays will play the Swallows next Monday evening. Following is the detailed score of last evening's games:

## OFF TO JEFFERSON FOR NEW LAURELS

High School Team Plays Their Third Important Game of Schedule This Evening.

The Janesville high school basketball team left for Jefferson at one o'clock this afternoon to battle with the Jefferson five tonight, in their game in the Southern Wisconsin basketball league. The game will be a good one, in the opinion of Captain Falter and other members of the squad. Stoughton met defeat at the hands of the locals, and in turn Stoughton defeated Jefferson by a good score. By this indication, it looks like an easy victory for Janesville, but the team is prepared for the unexpected.

Coch Curtis is unable to be out as yet, and the team has selected as their coach for tonight, Terence Hartwell, physical director at the Y. M. C. A. Mr. Hartwell is a popular favorite with the high school players, and is also an efficient coach.

The locals hope to capture a victory tonight, and much depends on the condition of the players. They were reported to be in fine fighting trim when they departed. Atwood the star forward, who was absent in the Beloit game on account of sickness, is back in uniform and is ready to lead his man a merry chase tonight.

The men who made the trip were: Capt. Falter, E. J. Edler, E. J. Hemming, C. Atwood, I. F. Dalton, F. L. Stewart, I. F. Kuhlew, E. J. Ryan, I. G. Several rooters accompanied the team.

## ANOTHER VARSITY TEAM TEAM TO MEET CARDINALS

Game at the Rink Tomorrow Night Promises Thrills for Basketball Fans.

The Janesville Cardinals have scheduled a game with the Wisconsin Cardinals at the rink for Saturday night. The Wisconsin Cardinals are composed of university students who are lacking in ability to make the first squad. This does not speak any discredit for them for the Janesville fans have found out that the varsity team from Madison are well versed in basketball. This team has defeated many of the strong up-state aggregations and has the advantage of practice of good players in addition to good coaching. Among the players will be the old Beloit center, Puffer, who played on that college's championship five last year.

The Janesville team stands well against any team from the varsity and will put the best players obtainable into the lineup which will probably be as follows: Wilkinson, center; Cunningham, Jones and Green, forwards; Langdon, Booth and Brown, guards.

## DECIDE ON PLANS FOR NEXT BILLIARD TOURNAMENT

Captain Baker's Team Hosts to Miller's Players at Hotel Myers Last Evening.

During at the expense of the losers, twenty-six members of the local lodge of Elks who took part in the recent pocket billiard tournament at the club rooms, enjoyed a beef steak supper at the hotel Myers last evening. Captain Baker's team, losers by twelve points, were hosts of the evening. Following the dinner plans were laid for the second tournament which will be

scheduled to start the first of the coming week. C. L. Miller, captain of the victorious team and Fred Baker, captain of the losers, were re-elected Captains and will arrange the schedule. The tournament is open to all members of the lodge and it is expected that there will be fifty matches arranged for the coming contest.

ENTERED AT THE POSTOFFICE AT JANESVILLE, WIS., AS SECOND CLASS MAIL MATTER.

MEMBER OF ASSOCIATED PRESS.

BUSINESS OFFICE OPEN SATURDAY EVENING.

### WEATHER FORECAST.

Janesville and vicinity Fair tonight and Saturday; warmer tonight.

### TO THE PUBLIC.

For the general information of the public, a charge is made for insertion of the following items in The Gazette: Cards of thanks.

Resolutions.

Obituaries.

Line rate 12c—six words to the line.

There is no charge for death notices and the facts regarding the life of the deceased. Obituary notices sent in days or weeks afterward are charged for at line rates.

There is no charge for one insertion of lodge, church, society or other organization meeting notices. Additional insertions will be charged at line rates.

To avoid mistakes, etc., these notices must be written out and mailed or handed into the editorial rooms not later than the morning of day for publication.

### MEXICAN SITUATION.

That the Mexican situation is a grave one can not be denied by even the casual observer. That American interests are jeopardized is shown by the press dispatches and that anarchy is rampant in the sister republic is known by the violations of the flags of truck recognized in all civilized warfare. The Wall Street Journal in discussing the situation says:

"If the government of President Madero disappears in the cauldron of anarchy which is brewing in Mexico, it will be an event of sobering significance for the future of Mexico and this country. It will reinforce the lesson that orderly self-government under constitutional guarantees is almost impossible of attainment among peoples so little advanced as the masses of the Mexican population. Madero has been a thinker and a dreamer, and not a man of iron. Around him gathered, after it became plain that the country was tired of the Diaz dictatorship, the thinking men and the substantial business interests of the country, determined to maintain a Mexico of order and civilization, even at the sacrifice of personal preferences.

"How resolutely the former friends of Diaz have labored to create the impression that order and good government prevailed in Mexico, has been illustrated by the assurances of Mexican ambassadors at Washington and in many other ways. If their efforts have failed, it indicates—that so many have feared—that the only government for which such countries are fitted is that of the mailed fist.

"If Mexico is to be permitted, under the present administration or the next, to fall into uninterrupted anarchy, the long work of men like Diaz, Mariscal, Limantour, Creel and Madero will be undone and the splendid structure of financial order and industrial progress which they created will become little more than an abandoned ruin. To them is due the Mexico of modern conditions—the extension of the railway network, the creation of a banking system better than our own, the abolition of custom houses at state borders, the invitation of American capital to enter the country by hundreds of millions for mining and industrial development, and the adoption of a fixed monetary standard. Apparently, all these things must go by the board unless the danger is averted by one of two things—the rise in Mexico of a leader strong enough to maintain order and broad enough to do justice, or the armed intervention of the United States. The latter would probably require half a million of men, and half a billion of money, but could be depended upon to unite Mexico—against ourselves.

"Mexico's finances were handled with peculiar skill during the eighteen years from 1893 to 1911, when Limantour was minister of finance. Old debts were consolidated and paid off and new debts were created for the purpose of developing the productive powers of the country and putting Mexico in the rank of modern civilized states. Her credit has been good, her bonds have sold freely on foreign bourses, and all through the panic of 1907 and the recent troubles the monetary standard established by the foresight of Limantour, with the approval of President Diaz, has remained unshaken. But all this will be lost if disorder becomes chronic and no single man rises above the crowd with power and prestige sufficient to continue the work which Diaz so ably began."

### HAMMER AND TONGS.

The anti-liquor interests and the liquor interests are at it hammer and tongs again in the Wisconsin legislature. Another county option bill has been introduced, which if it should become a law would affect Rock county, that bids fair to be discussed pretty thoroughly before the session is over. Meanwhile the brewers and the retail liquor dealers association are fighting each other over the saloon problem and a merry war is in prospect. The temper of the present legislature relative to the liquor question has not yet been tested, but it is alleged that the anti-saloon element is fairly strong this session so some legislation is possible.

### WILSON'S ATTITUDE.

President-elect Wilson, according to his "friend" Henry Watterson, is laying his plans for a second term in office in 1916, even before he begins his present one. According to Mr. Watterson, Wilson would like to see the single term bill now before con-

gress for consideration, so changed that he might run four years from now if he so desired. Well, stranger things than that have happened. Cleveland was elected to the first term, ran for the second and was defeated. Perhaps history will repeat itself.

The recall fun has practically just commenced. The next move will be the long drawn-out court proceedings. The legal discussion of this portion of the state laws will be most interesting and entertaining to the advocates of reform legislation the country through.

If you really want to boost Janesville put your shoulder to the wheel and help pull on the big band wagon of prosperity to get it over the top of the hill where traveling will be easy. The Commercial club has the right idea so get in line and unite your individual efforts with theirs.

With the advent of warmer weather will come the annual migration of the "wanderers" and now would be the time to start operations on a county stone pile with ninety day sentences meted out.

The work of the visiting nurse can not be over-estimated and concerted action by citizens generally in following out suggestions given will work wonders in the immediate future.

McGovern has not been ousted from the executive office though some of the legislators evidently think that he should be. Possession is nine points of the law, as the governor found out in trying to put Ekern out.

Washington will not be without a golf playing official as Thomas Marshall vice president-elect, is said to be an aspirant for honors in the good old Scottish game.

St. Valentine's day is always one which children enjoy next to Christmas. In all the schools today valentine boxes have been distributed and much fun enjoyed.

If some bright moving picture man had a camera in the City of Mexico these strenuous days he could reap a fortune easily. There is plenty of action down there just now.

This is the season of colds. But never mind, say fever time is coming shortly and then the discomforts of winter will be forgotten.

Showing partiality for the sex the first stop of the suffragettes was at Elizabeth, N. J. There is something in a name after all.

Washington will soon welcome the suffragettes as a relief from the tire-some tariff rebates.

The Balkan war is put into small type again by the present disturbance right here at home.

Doubtless there will be a loud noise in Europe when Adrianople really falls.

## OLD JEFFRIS MILL TO BE RAZED SOON

Dilapidated Structure on North River Street Will Be Wrecked Within a Few Weeks.

Preparations are being made to wreck the old Jeffris mill situated on North River street opposite the west side fire station. The property has recently been bought by Patrick Quinn who intends to use the lower story as a storage place for coal and wood. The building has been standing empty for some time and is in a very poor condition. The rear walls and foundation are decidedly unsafe and have threatened to collapse.

The building was formerly a planing mill but for the last six or seven years has been used for a storage place for the fire department. Mr. Quinn will wreck the two upper stories, leaving the lower floor for his business. Work will be started Monday and it is expected that the structure will be torn down and improvements will be made in about three weeks.

## ON THE PURSUE-MOMENT

A Motor Soused. We filled our car with alcohol the other day. They said it would not freeze if it were filled that way. Far, far be it from us to brag, But our mobile acquired a jag That was a peach and there was sure the deuce to pay.

It wobbled and it staggered 'round from side to side. 'Twas like a bucking broncho that the punchers ride. It took up both sides of the street. We could not hang onto the seat, If anyone got in its pathway, woe betide.

We tore down forty yards of brand new barbed wire fence. We jammed around and didn't think about expense.

We wrecked a hencoop, killed a cow And chased three miles a farmer's sow And in R. Oldfield's records put a lot of dents.

Our car tried to go into each saloon we'd pass. The doors were all too narrow so we smashed the glass. It was a day brim full of thrills, That car found five illicit stills And nine blind pigs before the thing ran out of gas.

It dropped down by the roadside with a dying wheeze, And nineteen miles back home we had to tan the breeze.

Booze puts that car right on the blink. 'Twill never get another drink Of alcohol. We rather thing we'll let her freeze.

### WILSON-McHUGH WEDDING SOLEMNIZED AT BARABOO

Janesville Relatives of the Bride Present at Ceremony on Tuesday Last.

The wedding of Eugene E. Wilson of New Harmony, Ind., and Miss Elizabeth A. McHugh of Baraboo, Wis., took place on Tuesday evening at eight o'clock at the home of the bride's parents in Baraboo. The mother of the bride will be remembered in Janesville as Miss Amelia Ellor. She spent the most of her life in this city.

Those who attended the wedding from Janesville were: Mrs. Charles Ellor, The Misses Florence, Frances and Lorene Ellor, Miss Clara Douglas and Messrs. Fenner and Malcolm Douglas and Leroy Ellor.

### THOUSANDS OF VALENTINES PASS THROUGH POSTOFFICE

Senders Were Lined Up From Entrance to Window of Local Postoffice Yesterday Afternoon.

Thousands of valentines, outward bound with their messages of affection and devotion passed through the Janesville postoffice yesterday morning and afternoon. For a while yesterday afternoon the senders were lined up from the mailing and stamp window to the entrance, waiting to be served in their turn. Today the flood of incoming valentines broke and clerks and carriers were reminded of the Christmas rush by the volume of mail they were obliged to sort and deliver. Valentines were sent as first class and third class mail matter this year as formerly, and the timid were not prevented from sending valentines through the parcel post with its insuperable demand that the name of the sender be given on the outside of the package.

### OBITUARY.

William Powell, Jr., the nine months old son of Mr. and Mrs. W. J. Powell, residing at 220 East Milwaukee street, died at noon today after having been ill for eighteen days with pneumonia. He leaves to mourn his loss besides his parents, a sister, Margaret, aged five years, and a brother, Ambrose, aged three. Funeral services will be conducted at the home tomorrow afternoon at two o'clock by the Rev. H. D. McKimney, rector of Christ Episcopal church.

## J.M. BOSTWICK & SONS.

"There Must Be a Reason."

In this matter-of-fact age people are less inclined than ever to take the statements of other people on trust, and quite right, too. After all, why should they? If a statement cannot be substantiated by reasonable argument and proof, then it is a statement and nothing more, and as such is of little or no value. In other words, as the heading in this little announcement reads—"There must be a reason." Particularly is this so with regard to advertisements. Anybody can claim that their particular brand of goods is the best, but a mere statement of claim without proof is valueless. "Proof," "Proof," is the continual cry of the purchaser, and the person who foolishly accepts the statement without it, more often than not, is sadder and wiser after the deal.

Take the advertisements relating to dress goods for instance. Numerous are the different makes advertised today, each one claiming excellence of style, superb finish and quality, until amidst the multitude must come confusion. "How," argues the would-be purchaser, "can I choose when each and all make the same claim?" There is only one possible answer—"Look for the proof." Here is a concrete example. The manufacturers who are represented in our Dress Goods stock claim that their particular line of goods are without question the best on the market today; that their quality and style are always up-to-date, and in accordance with the fashion dictates of the moment; and that the materials are the very best obtainable; that the work put into their construction is of such a high standard as to insure the longest possible life to the garment; in short, that each and every piece is the very best possible value procurable, at its price. This is the claim, and a big one it is.

**COUNTY CLERK'S OFFICE**

**CUPID'S HEADQUARTERS**

Valentine Placard Hung Above Marriage License Desk Lends Encouragement to Bashful Swains.

Through the kindness of some friend County Clerk Lee received a dainty heart-shaped valentine, the inscription upon which, as it hangs above the marriage license desk, is calculated to reassure our bashful swain bent on securing the necessary document for tightening Cupid's tolls.

The placard reads as follows: "License Court. Will issue marriage licenses at any time—at any day—at any hour. Come early and avoid the rush. St. Valentine's license bureau."

## NORTHWESTERN PLANS SHOPS AT GREEN BAY

Announcement Made That Work on Forty Stall Roundhouse Will Begin at Once.

J. C. Hogan, general agent for the Northwestern at Green Bay, has announced that work will be started immediately on a new round house, to be erected by the road. The plans call for a fine equipped house of forty stalls. In addition to the roundhouse the company plans to build an enormous ice house, shops, and coal shed. Nearly half a million dollars will be expended on improvements. Green Bay has always been an important railroad center and the building of the immense terminal house will increase the business of that city in the railroad line. There are five divisions running into that city, being connected with Janesville by the Northern Wisconsin division.

**THOROUGH SANITATION SYSTEM IN OPERATION**

Great interest has been awakened, and splendid results are being obtained from the thorough and systematic work which is being carried on under the supervision of the newly appointed sanitary inspector of the Northern Wisconsin Railroad. Passenger cars will hereafter be rigidly inspected as to cleanliness. Drinking water tanks are to be cleaned each trip and scalded, so as to be perfectly sanitary. This company is the pioneer in the matter of installing a department for the purpose of sanitary conditions and are carrying on this work in a completely organized manner.

Preparations have been made for the laying of the ballast on the divisions around Sterling. The work of laying of sixty-nine miles of hundred pound rails with nearly as many miles of rock ballast, will be started about March 1. The instructions are to lay the ballast around Sterling at first raising the track so that the work of putting down the brick platform at the stations may be made this spring.

There was a train of twenty-two cars loaded with potatoes from the northern part of this state that passed through here yesterday, and were bound for Oklahoma markets.

Engineer Morrill and Fireman Fletcher took engine 747 south on extra freight.

Engineer Cole reported for work after a short vacation.

J. M. Smith is working on the night shop run.

Engineer Sterret is on train 534 and 541 in place of Engineer Clark, who is confined to his home with sickness.

Chicago Milwaukee and St. Paul.

Orders have been received from R. E. Stier, chief dispatcher, which is to take effect immediately, that if any trainman or engineer are injured, no matter how slightly, the men in charge will wire the dispatcher's office at once. The officials at the place of injury are to hold the injured party out of service until he has reported to the company doctor, and signed release from legal department.

Instructions have been given the employees regarding the equipment of the trains in case of emergency. Each engine must be properly fitted with torpedos, fuses, red flags, and lanterns of proper color for flagging trains, before leaving the roundhouse. These are to be kept in their proper places where they will not be damaged and will be easily accessible. Engineers are to be held responsible to see that their engine is so equipped before starting on a run.

Engine 208 was taken to Milwaukee for overhauling. Engine 753 took the damaged engines place on the extra passenger work.

## OBITUARY.

Thomas Kehoe.

Last services for Thomas Kehoe, were held at nine o'clock this morning at St. Patrick's church. The Rev. Father Mahoney celebrated requiem mass. The five sons of the departed, Thomas, B. J., N. J., Lawrence and Christopher J. Kehoe, and a grandson, C. Curtis, acted as pall bearers. Interment was made in Mt. Olivet cemetery.

## CLINTON

Clinton, Feb. 14.—Miss Ruth Valentine Bradley, whose birthday is on St. Valentine's day, will celebrate that event with her aunt, Mrs. Joseph Echlin at Janesville, remaining over Sunday.

Oscar Wingate, head cutter in the George B. Hubert meat market, spent Tuesday in Rockford.

W. H. Northrop's negotiations for the purchase of a lot on Durand street and if he secures it, will erect a fine new house there.

J. L. Boden of Lake Geneva, visited his son, A. J. Boden, yesterday between trains.

Mr. and Mrs. John Blakely of Tilton Grove, Wis., were here Wednesday. Mr. Blakely is president of the Delavan Lake assembly and was unable to get a quorum of the executive committee. He came over here and secured the desired number and a meeting was held in Doctor C. W. Coliver's office.

Ed Ackley was in town yesterday, calling on old friends.

Word was received yesterday that Mrs. Jos. De Wolfe had suffered a relapse, and was critically ill at the home of her daughter in Milwaukee.

## MILTON JUNCTION

Milton Junction, Feb. 14.—Mrs. F. M. Roberts left Wednesday night for North Dakota.

John H. Owen left for Rochester, this morning, where he will consult the doctors.

Ray Cole left yesterday for his home at Redfield, South Dakota.

Ray Bassett has stored his household goods in the Burton block.

Geo. Mailpress is not as well at the present writing.

Merle and Ray Peterson recently visited at W. P. Noe's.

J. W. Davy installed a furnace in R. E. Hull's residence last week.

Mrs. Rufus Davis has been numbered with the sick.

George Harvey is spending a few days here.

**Debaters Well Prepared:** The six debaters at the high school will take a rest for a few days. They have been practicing faithfully on their speeches for the past several weeks, and are well prepared for their meeting with the two Beloit teams. For the present they will pay less attention to their main speeches and will spend more time on rebuttal.

## PARCEL POST

HOW TO USE IT.

(The new parcel post law includes some perplexing provisions. The Gazette is from day to day presenting a concise explanation of some of the more important sections of the law.)

For the purpose of determining parcel post rates the United States is divided into quadrangles, called units, of 30 minutes latitude by 30 minutes longitude. The center of any given unit is the center of the zone system for all postoffices in that unit.

If the circle which determines any zone passes through or touches a given unit, said unit is included wholly within that zone. (See illustration in upper left hand corner of Gazette Map.)

The eighth zone rate of postage except on parcels weighing four ounces or less, on which the rate is one cent an ounce, shall apply to all parcels of fourth class matter mailed in the United States for delivery in Canada, Mexico, Cuba and the Republic of Panama. The foregoing is subject to such modification as may be necessary to conform to regulations prescribed by special Parcel Post Conventions.

The Gazette Parcel Post Map gives the zone limits, rates and all the provisions of the law. It is a good Geographical map of the United States and for a quick comprehension of the parcel post law is invaluable. This map is now on sale at 25 cents, if called for at the Gazette office, or 35 cents by mail.

The map is FREE if you pay one year's subscription in advance to the Daily Gazette.

## FORTY YEARS AGO

Janesville Daily Gazette, February 14, 1873.—Common Council: Special meeting last night. A poll tax report made by Alderman Metcalf was received and placed on file. On motion of Metcalf the city treasurer was directed to charge the first ward fund with \$110.66, and place same to the credit of the fire department fund, for work by fire department teams.

The city treasurer was voted \$15 to reimburse him for money paid out to buy Charles Pulker. Finance committee reported in favor of allowing accounts for the general fire department and Marie street funds. Report accepted. On motion, a resolution was adopted requesting Hon. H. A. Davis to procure such legislation as will enable the city to raise by the tax the sum of \$7,500 for the general fund instead of \$5,000. On motion, adj.

W. H. Pease of Fulton, has invented and perfected a machine for manufacturing cigars which does one-half of the work usually performed by skilled hands. The machine turns cigars ready for the binders and wrappers at the rate of from six to ten thousand per day and does it better than the workman of ordinary capacity. It is a curious piece of mechanism and one requiring an unusual degree of mechanical skill and inventive ability, but Mr. Pease has now perfected the machine so as to feel perfectly confident that it will meet with a ready sale. Years ago this gentleman's creative faculties were employed to construct a machine for cutting tobacco and today his invention is in general use among the large manufacturers. His latter achievement, the cigar maker, has been thoroughly tested at Fulton, where Mr. Pease has, for some time past, conducted a large cigar factory and it has performed its work to the satisfaction of every practical person who has witnessed its performances. Mr. Pease desires to locate in this city an establishment of his machine.

# At The Theatre

FORREST WINANT AS NORMAL BEANE, THE "DOWN-AND-OUTER," AND GIRL CHORUS SINGING "MY RAG-GYD DOLL," IN "THE GIRL AT THE GATE," AT MYERS THEATRE, THURSDAY, FEB. 20.

"The Girl at the Gate," direct from the La Salle Opera House, Chicago, is scheduled for performance here Thursday, February 20, at Myers Theatre, which announcement will undoubtedly stir the theatregoers of this vicinity to greater interest than has been displayed in any musical comedy offering for a long time. This funny piece, with its cast and production identical to the same as it has been in the La Salle since the beginning of the season, comes at this time for the sole reason that the directors of the La Salle Opera House Company have decided to begin immediate work on the reconstruction of that famous little theatre in order to have it ready for the next production April 15th.

The spine of this show is a prophetic topical plot having to do with

the Panama Canal in a navigable condition and with the Panama Exposition, which is expected to brighten the San Francisco of 1915. The story and verses of the songs were devised and written by Will H. Hough and Frederick Donaghey, the former part author of a long list of La Salle theatre musical comedies, the latter part author of the all-time-season success "Louisiana Lou" in the La Salle. The many tunes of the new piece were made by Ben M. Jerome, composer extraordinary to the La Salle.

Wit finds its way into the libretto of the offering, its first act, in particular, being the most brightly written stretch of musical comedy that has been put on the stage in many a day. The second act turns a little more freely to low comedy, and, while it

is no less provocative of laughter, it differs from the first for the sake of variety and to provide an interest for those who prefer a visual to a mental attack upon gloom. In the first act there is a stretch of very amusing repartee, which has expert delivery, and there are nice bits of sentiment, which are accurately projected. The players who carry the chief weight of the performance are exceptionally skilful. They possess decidedly attractive and varied comic talents, and are gifted in song and dance. Each leads in his or her turn, and each, on occasion, helps direct the success of the others. The entertainment, as devised by its authors, and in the manner in which Manager Harry Ashkin presents it, is fit for any theatre, anywhere.

## The Fifteen Dollar Overcoat Special

**At \$15** we're rather proud of what we can do for you now in overcoats. Most stores would require \$20 to do anywhere near as much. All wool, every thread of them, tailored right and cut right to fit right. Great value in every way. Cost us more than we ought to pay for overcoats selling at \$15, costs you less than you've ever paid for an equal value. They're regular \$20, \$22.50 and \$25 coats.

That snap and dash and liveliness that young fellows demand is to be found in our overcoats. There are belted back models, plaited back coats, flaring skirt coats—the kind of coats that look well on young high school and business men. This young men's department of ours is a wonder—young men "take to it" and enjoy it. Special values in young men's overcoats at \$15.00.

## \$13.50 Suit Sale

These suits you may well be proud to own. They'll do justice to your appearance; that appearance is worth something to you; these suits improve it. Made by such master tailors as Hirsch-Wickwire, Michaels-Stern & Co., etc. You cannot spend \$13.50 to better advantage than by purchasing one of these. Regular \$20 and \$22.50 values.

## The Boys' Clothes Question

It's an interesting subject to study and as a rule, a most difficult problem to solve. We have studied boys' clothes—concluded that boys are "bound to be boys" and that they must have a certain amount of sturdiness, along with style, in the make of their garments.

We still have a number of Boys' Knickerbocker Suits, sizes 12 to 17, regular \$3 to \$7 values, tomorrow at \$1.95. Great values if you can fit your boy.

## Ladies' Shoe Special

There are still a great number of shoes left from our last Saturday Shoe Sale, sizes 2½ to 6, narrow widths, Gun Metals, Patent and Vici Kid, Button or Lace, Saturday morning, only, from 8:00 o'clock until noon, at \$1.25 per pair.

LECTURE COURSE NUMBER  
PLEASES MILTON AUDIENCE

Readings of Adah Jessup Johnson Are Thoroughly Enjoyed Last Evening

[SPECIAL TO THE GAZETTE.]

Milton, Feb. 14.—Adah Jessup Johnson gave the fourth number in the high school course last evening at the College "gym."

Miss Johnson gave readings and impersonations, the latter without the aid of costuming. She pleased her audience and her stage presence is fine. The feature act in the program was the recitation from a playlet, "The Fortune Hunter," in which she scored a distinct success.

Miss Marian Ingham, not Longham, as the typo had it, took the first honor in the declamatory contest.

Mr. and Mrs. Griswold of Lake Geneva have been guests of B. J. Curtis and wife this week.

W. K. Davis has been in Chicago for a few days on business for the Davis Printing company.

Thos. Davidson and family returned to their home at Beloit, Kansas, yesterday.

Miss Belle Whitford is visiting Rockford friends.

Miss Aiken of Niles, Mich., is visiting at W. C. Wilbur's.

Howard Lloyd Jones will give his illustrated lecture on Lincoln at the Auditorium, Tuesday evening, Feb. 13. He appears under the auspices of the Sons of Veterans.

J. R. Howard and wife of Milwaukee have been visiting Milton relatives.

The Rebekah lodge held a valentine social last evening. They entertained their friends.

Salt on the Moon.

At an address delivered before the Royal Astronomical society in London a new explanation was offered of the long-standing mystery of the bright rays emanating from some of the so-called lunar craters. It is thought that they may be caused by salt efflorescence.—Harper's Weekly.

Considerate.

"You used to want to hold my hand before we were married," she complained. "I'd like to now," said he easily, "but it would keep you from your housework, my dear."

## SIDEWALK SKETCHES

RUBBERS.

(By Howard L. Rann.)

RUBBERS are small, uneasy articles which people wear on their feet in order to sidetrack a sore throat. A man who wears rubbers year in and year out, quits smoking and ornaments his neck with a red flannel bandage perfumed with turpentine and hard run down his throat in order to see if anything is out of plumb.

Rubbers are made of some clinging material which has the habit of settling down on an up-rearing corn and striking it in the face from time to time, causing the wearer to bend back his toes with a gesture of alarm. Shoe salesmen encourage this diabolical practice by feeling around carefully, when fitting on rubbers, and locating all of the corns which can be reached from the outside, then pulling on a rubber with teeth in it like a set screw.

New rubbers are always given one coat of paste filler and three coats of shellac, after which they are rubbed down to a bright piano finish and fitted over shoes which are blacked every Christmas and Fourth of July. This affords a striking contrast in colors and saves the price of a shine. After a rubber has been imbedded for a few times in nine inches of clay salsol, however, it cannot be told from any other part of the foot.

Rubbers are so constructed by unscrupulous manufacturers that they will never fit more than one pair of shoes, thereby compelling people who change their shoes on Sunday to invest in another pair. A man may own six pairs of 7½ shoes on a V last, and he will be lucky to find one pair of rubbers that he can get into without backing up against the wall and throwing his knee cap out of joint.

The toe rubber is a treacherous attachment which has to be unscrewed by main force in the front hall, but always falls off in the middle of a muddy crossing, leaving the wearer hung up in mid-air with one leg pointing toward the town clock. This kind of rubber also manages to stay down at the office when the owner wants to start from home in a rain storm.

## ASK OLD SOLDIERS TO LINCOLN SERMON

## THE DAILY NOVELETTE

THE PARTING

All his life, among other odds and ends, Algy Knoodlums had worn socks and a monocle. And now that he was about to tour the widely woody West, he had not the slightest intention of renovating his raiment.

As Algy Knoodlums stepped of the train into the station of the far Western town of Red Dog, the loitering loungers lunched up to him.

"Air ye calc'latin' on goin' inter town with them there angel's leg-gins and that there circ'lar window pane?" inquired Fuzzy Scooter.

"Certainly," replied Algy. "This is a free country, is it not?"

"Yes; that's why I'm warnin' you," said Fuzzy, holding out his hand. "Goodbye, pard."

And one by one the other loitering loungers lunched up and bade Algy farewell. But one there was, there was one, a man of solemn mien, who refused to say goodbye.

"All right, pard," he said. "We'll meet again."

"Surely we shall meet again!" cried Algy, as he shook the stranger's hand.

"And, who, sir, are you?"

"I," said the mournful one, "am the undertaker."

They met again.

## Eats Freely But Has No Dyspepsia

Takes a mild laxative with good pepsin and insures comfort and pleasure.

Fortunate is the one who can eat "anything" without suffering the tortures of dyspepsia, but as few are so fortunate care should be taken in the matter of diet. Eating slowly, masticating the food thoroughly and taking a short walk after the heavy meal of the day will do much towards assisting digestion. Any grown-up person ought to know the peculiar foods that do not agree and these should be avoided.

When these common-sense aids fail, the next thing to do is to take a mild digestive tonic with laxative properties, and there is none better than Dr. Caldwell's Syrup Pepsin. It contains the greatest of all aids to digestion, good pepsin. It has other ingredients that act mildly on the bowels, which together form a combination for the relief of dyspepsia or indigestion that is unsurpassed.

Its action is to tone and strengthen the stomach and bowel muscles so that they can again do their work naturally without outside aid, and when that happy moment comes all medicine can be dispensed with. It is the best remedy obtainable for any disorder of the stomach, liver and bowels, for dyspepsia, constipation, biliousness, headaches, drowsiness after eating, gas on the stomach, etc. Thousands of users will testify to this, among them, Mrs. Oliver Young.

Mrs. Young says: "After many years of suffering from indigestion I have obtained what I believe to be permanent relief by using Dr. Caldwell's Syrup Pepsin. I feel 10 years

MRS. OLIVER YOUNG.

younger, my work seems easy, my breath is no longer bad, and I eat what I want without distress.

Syrup Pepsin is sure in its results, and a vast improvement over chewing or swallowing tablets and minus or taking cathartics, salts, etc., all of which are harsh and nauseous and at best do but temporary good. You can obtain Syrup Pepsin at any drug store for fifty cents or one dollar a bottle. Results are always guaranteed or money will be refunded.

If no member of your family has ever used Syrup Pepsin and you would like to make a personal trial of it before buying it in the regular way of a druggist, send your address in a postal note to Dr. W. B. Caldwell, 417 Washington St., Monticello, Ill., and a free sample bottle will be mailed you.

George Lyons is in Waukesha taking treatments for rheumatism.

William Guttery is in Waukesha, visiting Henry Johnson, who is taking treatments in that place.

The Men's club of the Congregational church will meet at the home of J. W. Conn this evening. A debate will be given by G. W. Blanchard and L. C. Whittet.

The high school basketball five will play the Columbus five this evening in the high school gymnasium. This game is expected to be a fast one as the Columbus team comes here well recommended. They are fast and clean in all their plays, which helps in a team's name or title. The Edgerton boys have had hard luck in their last few games, by being defeated badly by the visiting teams. But it is time now that they woke up and start working.

C. A. Brooks of Madison is a visitor here today.

Word was received from Waukesha that Henry Johnson is not so well. He has had several bad nights lately, but it is hoped that he will be able to return home soon.

A. K. Valien is a Janesville visitor today.

Mrs. Fred Phifer is a Janesville caller today.

Mrs. Ed. Moore is a caller in Janesville today.

A. M. Thorpe, a druggist of Milton Junction, was a business visitor here Thursday.

## Take This Man's Advice

BY THE GREAT KIDNEY REMEDY

It always gives me pleasure to recommend anything that is right and so I feel it my duty to herald the praises of Dr. Kilmer's Swamp-Root.

For years I was troubled with kidney disease and it was so intense that I was bedridden for days at a time. I gave up all hope and doctors for miles around gave me no help. Incidentally, I tried several patent remedies and at last tried Swamp-Root. From the first it gave me relief and it was no time before I was able to be up and around and now I am perfectly well and able to work as I used to before, my terrible sickness.

So now let me thank you for your wonderful discovery and take this opportunity to recommend it to all who suffer from kidney troubles.

Yours, very truly,

WALTER SHIRVEY.

Hope, Ark.

## Quality and Style Combined

IN OUR

## New Spring Dress Fabrics.

Women are now on tip toe of expectancy as to new styles, and are skirts to continue to be narrow or be fuller are the consuming questions of the moment. Each query might be answered in the affirmative, for while the foundation skirts remain rather narrow, the over-drapery and panner effects will prevail. Pleated skirts are also seen; fashioned to the straight lines which have become too popular to be abandoned.

Every woman should, from the several modes, be able to select one best suited to herself, for to be becomingly dressed, means being well dressed. The importance of buying first-class fabrics must not be overlooked, as the beauty of a gown is either cheapened or enhanced by the quality of the goods used in its make. Our stock of Wool and Silk-and-Wool Dress Goods comprises the latest and best productions from the world's greatest Ateliers, and are most satisfactory, and have the manufacturer's guarantee. A post card will bring you samples of the following

## CHAT WITH THINKING WOMEN

by Barbara Boyd

### Laws and Songs

**CARE** not who makes the laws, so I make the songs," said one who well understood human nature.

And if we would give heed to his remark, and would look into the psychology that lies underneath it, perhaps we would not be so indifferent to this matter of popular songs, against which a few solitary voices are lifting protest.

We all know how certain songs have moved multitudes. History has told us of the effect of the "Marseillaise." We know ourselves the emotion that sways us when we hear a great chorus singing the "Star-Spangled Banner." We know the uplift that comes to our spirit with the hearing of certain familiar hymns. But we do not follow this feeling in its working out in other ways.

If music of a certain kind can stir to worthy action, music of another kind can stir to unworthy thoughts and deeds.

And this is especially true in its effect upon the mind of the young boy or girl. The young man or young girl who continually hums, or sings or thinks upon such songs as "My Wife's in the Country, Hurrah! Hurrah!", "Will you tell your wife or the morning you were with tonight," "I can see that you are married and you know I'm married too," "I want one like Pa had yesterday," "We've been married long enough," "Can't a man love more than one," and so on, cannot but have his standards of conduct affected by them.

And such songs are apt to have catchy tunes, and so they stay with one, and gradually, almost unconsciously, their poison works into the mind, lowering ideals, leading to apathy, and to a light, irreverent way of looking at the serious things of life.

Marriage and home life and such things are not the only subjects treated in this irreverent and vulgar fashion. Almost every thing of life is drawn into the ragtime net, and befouled with its cynicism and vulgarity. And the nation whistles and sings and jokes about these songs. And after a while, its ideals in many of these matters are lowered to ragtime standards.

Music is so beautiful a thing, its lift and melody and swing are so luring and joy-giving surely we should not let it be used as a medium for the vulgar and debasing.

Some earnest music lovers have taken the matter up, but as yet they are in the minority, and their protests are little heeded. But if all thinking mothers would teach their children to love the beautiful in music, and would point out the vulgarity of these songs, this would be of great help to those who are working to preserve a high national taste in music.

And the matter reaches still farther, for the one who knows human nature voiced a significant truth when he said, "I care not who makes the laws, so I make the songs."

Barbara Boyd.

## HOUSEHOLD HINTS

### Things Worth Knowing.

Put your small pieces of soap in a little bag and toss it in the washboiler. When the washing is completed the undissolved pieces will still be in the bag—next wash day, instead of on the linen, where they are sure to make scorch places when ironed.

Before you use a new pair of hose, sew a hook on the top of one and an eye on the other. If you hook them together before they go into the laundry, you need not pin them on the line, as they will stay by being thrown across. This plan also saves sorting them out after the washing, as they will be already mated. After stockings are washed, and before they are worn, rub the places receiving the most wear with a cake of paraffin; this hardens the yarn and prevents the coming of holes to a great degree.

To bake pancakes without greasing the griddle, cut a pared raw potato in half and rub griddle thoroughly. Cakes will be a most delicate brown, which is very difficult to obtain frying in grease. No smoke, either.

Duckwheat pancake helps—When you are through with your duckwheat pancake batter in the morning, put in some warm water and your dry pieces of bread and your cakes will be much improved; when you stir them up next morning put in a little sweet milk with a soda in it and they will brown beautifully. I always put in part white flour.

**The Table.** Scalloped oysters—Roll fine one quart crackers. Grease two-quart pan, put in layer of cracker crumbs, then layer of oysters seasoned with salt, pepper and bits of butter. Alternate layers, add one quart sweet milk, bake three-fourths hour.

**Baked Beans.**—Soak over night, one quart navy or kidney beans. After looking over in morning, set on stove in stewpan or kettle cover well with cold water, let come to a boil, drain off water, put about one pound salt pork in baking dish, turn beans over pork, salt, add three or four table-

spoons maple syrup or as many spoonsful of sugar; pepper and salt; cover with hot water; bake in oven four or five hours; if too hot cover tight. If water dries out, add more hot water. Stir but little, to keep the top under a little, but brown nicely, but not scorch at last.

**Prize soft gingerbread.**—For a man's dinner, or school luncheon, it is fine. One cup good baking molasses, one-half cup white sugar, one-half cup shortening butter and lard (melted), two level teaspoons soda in one cup hot water; 2-1/2 cups flour, one-fourth teaspoon each cinnamon, cloves and ginger, pinch of salt, one large cup raisins (snip raisins with shears); two eggs well beaten. Beat all thoroughly, bake in two deep cake pans about 40 minutes in slow oven.

**Graham gems.**—One tablespoon brown sugar, one egg, one tablespoon melted butter, one cup sweet milk, one cup graham flour, one cup wheat flour, two teaspoons baking powder.

**Grandma's Favorite Cookies.**—One pound dark brown sugar, one teaspoon baking soda, one tablespoon all-spice (ground), one teaspoon ground cloves, one grated nutmeg, 5 cents worth citron (chop fine), one-fourth pound finely chopped almonds, three eggs beaten light, one cake chocolate grated, enough flour to make it stiff. Roll thin and cut with cookie cutter. Frosted creams (which we never tire of at our house).—One cup sugar, one cup molasses, one cup butter or lard, one cup buttermilk, two teaspoons soda, one teaspoon ginger, a little salt, yolks of two eggs, flour to make stiff dough. Bake in hot oven.

**Frosting.**—Boil two cups granulated sugar, one cup water until it spins a thread when dropped from a spoon. Beat whites of two eggs to a stiff froth, add one-half teaspoon cream of tartar, add syrup little by little, beating evenly and vigorously until cool; flavor to suit taste. Spread on cookies, let till dry.

## HEART and HOME PROBLEMS

Dear Mrs. Thompson: Is a girl engaged unless she has an engagement ring? Should an engaged couple exchange rings? Don't you think that when a girl has said she will marry a man, he ought to get her a ring? All the engaged girls I know have rings and I haven't got anything to show that I am engaged.

**FLOSSIE.** An engagement ring is not necessary, though customary. You may be very safely engaged without a ring, provided you have announced the engagement with the consent of your parents.

Sometimes an engaged couple exchange rings. It is a pretty custom, but not generally indulged in this country. An engagement ring is just a pretty token of love, entirely voluntary on the part of the man. Some girls do not care for a ring and prefer some other gift. Possibly your young man

has not thought of it yet, and perhaps he cannot afford to get you as nice a gift now as he would like.

You are probably loved just as much as those other girls who have rings to show. Don't let that worry you, Flossie. If you've got a good man hold onto him, ring or no ring.

Well, here is the trouble that needs your advice.

Some time ago I met a young lady who attracted me very much. She is employed near the office where I work.

I have often since met the young lady, but every time I asked to call at her home she had some excuse for my not calling. Since we have become better acquainted, and I pressed her for a good reason why she did not want me to call, she said she did not want her mother to know anything about me. That stunned me. I feel you.

**PUZZLED.** Now what do you suppose is wrong? I am sure she is a good girl, and I am pretty much in love with her.

If she is all right, I want to marry her. But doesn't it look queer that she doesn't want her mother to know anything about me, and doesn't want me to visit her at home?

If I were you and I was sure the young lady was good and lovable, I would trust her.

The girl probably has a very good reason which you would respect, if you knew it. Her home may be very poor, or her mother very unpleasant. Some mothers, you know, will not permit their daughters to have masculine company, especially if the daughter is earning a salary which she contributes to the home and which would be stopped if the daughter married.

Got well enough acquainted with the girl to ask her what the real trouble is. Find out who her friends and relatives are, if you can. Study her character, and if you are satisfied from what she does that she is worth a good man's love, tell her you love her and wait for her for a while.

Dear Mrs. Thompson: I am dead in love with a young man one year my junior. He says he loves me and cannot live without me. But when I go out with him and my cousin and her friend, he always lets the other fellow foot the bill. This gives me the impression that he is stingy.

Would you advise me to marry him? He wants to get married next year. My guardian says he is not good enough for me but I love him.

**ANXIOUS SUE.** He seems to be an unusually thrifty young man. However, if he had any pride, he would want to stand his share of the expense. Better wait a while before deciding to marry him. Look around and see if you can't fall in love with some man who doesn't sponge on anybody.

Dear Mrs. Thompson: What is good for aching feet? Mine hurt terribly just as soon as the weather warms up.

**MRS. M. C.** Bathe them morning and evening in warm salt water. Sprinkle talcum powder in your shoes.

Are your shoes a comfortable fit? If you have two or more pairs of shoes change your shoes two or three times a year. And kind of cloth shoes are better than leather in hot weather, canvas is excellent.

Have you ever rid riding moccasins in the house? They are excellent for tired and aching feet.

**The Kitchen Cabinet**

**T**O BE as good as our fathers we must be better. Imitation is dishonour. When some one sent a cracked plate to China to have a set made, every plate in the new set had a crack in it.

**SOME WINTER DISHES.**

Cut up two chickens and remove all the large bones, fry in a little hot fat or five minutes with a sliced onion. Use a slice of salt pork for the fat, finely cut. Put the chicken into a deep saucepan with just enough boiling water to cover; cook until tender, drain and arrange in a baking dish. Beat the yolks of three eggs, add a cup of milk, a tablespoonful of butter, salt and cayenne, and flour to make a stiff batter. Fold in the whites of the eggs, beaten stiff. Pour over the chicken and bake until brown; thick on the stock in the pan with flour, and a few mushrooms or oysters, and this gravy will be a great addition to the chicken pudding.

A few slices of nice salt pork dipped in corn meal or flour and fried brown and crisp are good, served with baked potatoes and a gravy made with milk and the fat left in the pan.

**Baked Corn and Cheese.**—Take two cups of corn, mix with a slightly beaten egg, two tablespoonfuls of melted butter, a cup of milk and salt and cayenne pepper to taste. Put into a well buttered baking dish, cover with grated cheese and fine bread crumbs, dot with bits of butter and bake until brown.

**Sponge Cake With Jelly.**—Cut out the center of a round sponge cake, leaving the sides and bottom thick enough to hold a pint of jelly. Prepare an orange or lemon jelly, with bits of nuts and fruit, if liked, turn into the cake when it begins to get thick. Set on ice to mold and serve with sweetened whipped cream spread over the top.

**Shapleigh Cheese.**—Cut stale bread in half-inch slices, spread with butter and cut in finger-sized pieces. Stand the pieces close together around the edge of the baking dish and pour in the following mixture: Beat two eggs and add a cup of thin cream, a tablespoonful of butter, one teaspoonful of salt, a pinch of mustard and cayenne and a half pound of soft, mild cheese cut in small pieces. Bake thirty-five minutes.

## The Evening Chit-Chat

BY RUTH CAMERON

**"I** LIKE the lad when his father says 'To clip his early morning nap.' By backslapping tale of vagrant worn by early songster caught. 'Cried, 'Serve him right; his not at all surprising. The worm was punished, sir, for early rising.'"

We all know there is such a thing as being too late. But aren't we apt to ignore the fact that there is also such a thing as being too early?

At least, it seems to me that there is. There are some people who are always at least ten minutes late to an appointment. There are others that are always correspondingly early. And whereas it is invariably trying to have to wait for anyone, it is sometimes equally trying to have people invariably come before you are ready for them.

I have a friend who frequently calls for me when we are going out together. We always appoint a time for her to come which will give us more than ample time to reach our destination, even allowing for all possible delays—she sees to that. And then she always comes from fifteen minutes to a half hour before the time appointed.

Needless to say I am never ready at that time. Then, of course I have to stop and welcome her and because of the feeling of being hurried, which her air of patient waiting inspires in me, and which naturally makes me slower than usual, I am not ready on time.

I have another friend who always gets to any appointed place of meeting at least ten minutes ahead of time. And then if by any chance I am two or three minutes late she snaps her watch at me reproachfully and assures me that she has been waiting fifteen minutes. I know that I am only to blame for a few somehow contrives to make me feel the same.

People of this temperamental always go to a train or boat from five minutes to five hours before the starting time, the length of time depending on the length of the trip. They never lose their trains, to be sure, but they waste as much time waiting around in depots as they would by missing a train once or twice in a lifetime. My ideal man must carry a watch that is exactly right, and arrive at a train not more than five minutes before starting time, preferably less. I don't want him to appear to be in a hurry. I want him to leisurely board the train and take his seat just as it starts.

From our youth up it has been drilled into us that punctuality is a virtue, and I don't deny that. I merely wish to call your attention to the fact that punctuality does not mean being early one bit more than it means being late. Listen to Mr. Webster's definition of punctual—"adhering exactly to a regular or appointed time."

Therefore those people who are always early are just as far from being punctual as those who are always late.

But wouldn't they be mad if you told them so?

## Domestic Science DEPARTMENT

CONDUCTED BY Mrs. Alice Mitchell Kirk

**Meat Substitutes for Lent.** "Men die because they know not what to eat."

Some vegetables are perfect meat foods, such as wheat, rice, barley, oats, corn, also nuts, split peas, cheese, dried beans, lentils, macaroni, eggs and milk, raisins, dates, figs and bananas. These, however, must be served in the proper amount, as too much meat or too much nitrogenous foods of any kind, peas beans, etc., require the liver to overwork, creating the necessary bile in order to work the waste from out of the system.

Most people consume as much energy in getting rid of worthless food as they do in a hard day's labor. Remember as we grow older no useless working of the machinery should be allowed.

It is also most important to have all foods properly combined, so I am adding some menus using vegetables to take the place of meat and the salads and desserts, which combine well with them. These I have taken from my booklet on "Right Living Food Combinations."

1. Baked beans with peanuts, pecans or English walnuts, baked potatoes, combination salad, waters coffee.

2. Vegetable pie, water cress salad, French dressing, lemon jelly, sponge cake, coffee.

3. Bean stew with dumplings and potatoes, tomatoes, salad, cheese wafers, coffee.

4. Spaghetti with cheese and tomato sauce.

**Marble Pudding**

Steamed puddings will not be heavy if made with K C Baking Powder and cooked slowly to give the pudding time to rise before the dough is cooked through. Have a low flame under the water for at least the first fifteen minutes.

**K C Marble Pudding**

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

2 cups sifted pastry flour; 2 level teaspoonfuls K C Baking Powder; 1/2 teaspoonful cinnamon; 1/2 teaspoonful salt; yolks of 2 eggs, beaten light; 1/2 cup sugar; 1/2 tablespoonful melted butter; 1 cup cold water; whites of 2 eggs, beaten dry; 1/2 ounces melted chocolate.

Sift together, three times, the flour, baking powder, salt and cinnamon. To the yolks add the sugar, butter and water, and stir into the dry ingredients. Add the whites of the eggs. Divide the mixture into two parts and add the chocolate to one part. Discharge the two parts in a buttered mold to give a marbled appearance. Steam forty-five minutes.

**Vanilla Sauce**

Put 2 cups of sugar and a cup of water in a saucepan, add 2 tablespoonfuls of butter and a teaspoonful of vanilla extract.

## The Gold Dust Twins' Philosophy

**D**OES it occur to you, my friends, that woman's labor never ends—that is, if she's inclined to be a trifle stubborn constantly. Some housewives glory in the thought that battles won must be re-fought.

### First Aid to The Housewife

This jingle is for those who try to smile at toil and reason "Why," who will not let the household cares crush down life's other glad affairs. You'll find, where Mrs. Smith or Brown thus reason, in a certain town, that Gold Dust helps to minimize the number of back-aches and sighs.

The Gold Dust Twins forever toil, with dirt and trouble as a foil. They start each morning, at the top, and only after night-fall stop.

Opportunity is Knocking at Your Door. Theirs is to DO if NOT to DIE—There is to never question "why?"

At kitchen tasks their talents shine; the floors they polish up are fine; in fact, no matter where they go they leave a spotless trail; and so, like sunshine, when the sky is grey they help to drive the clouds away.

Each grain of Gold Dust also shares in cleaning up the household wares; each mop it touches seals a bond, to make a mop a fairy wand; each brush or cloth holds regal sway in driving dirt's dull care away.

### DIET AND HEALTH HINTS

By DR. T. J. ALLEN Food Specialist

**PROTEIDS AND PUTREFACTION.**

"An unlimited mixed diet," says Dr. George Edwin Hunt, "especially if there is an excess of proteids in it, will inevitably lead to putrefactive disorders in the intestine. That means auto-intoxication. Auto-intoxication means insomnia, lethargy, loss of memory, diminished brain activity and an host of other evils. All proteid substance lends itself to putrefaction. The proteids especially prone to putrefy are the animal proteids, so that a flesh diet or even a mixed flesh and vegetable diet is poison to persons with a tendency to colon putrefaction." This has been maintained in these hints for several years and emphasized by many examples. Its importance is being more and more recognized and many are changing their diet accordingly.

Two teaspoonfuls of mixed chopped nuts with shredded wheat biscuit, oat meal, or graham crackers and eaten with part milk and cream is a good lunch if taken slowly. Milk should always be chewed.

More ill health, muddled brains, and failure in business deals, come from over eating and wrong combinations than have ever yet been realized.

## CHURCH AND DIVORCE WILL BE DISCUSSED

THE REV. FATHER A. O. WALSH  
SPEAKS TONIGHT ON ROMAN  
CATHOLIC STAND.

## CONFESSIONAL UPHELD

Noted Priest Says it is Based  
On Scriptural Grounds—Quotes  
Bible in Support.

That the Roman Catholic "confessional" is reasonable and based upon the strongest scriptural grounds was the position in support of which the Rev. Father A. O. Walsh last night marshaled his forces of logic and persuasion, reinforced by liberal and well selected quotations from the bible. His address on this much debated question drew the largest audience that has yet attended any of his lectures in this city. The ground floor and balcony of the Myers theatre were filled, there was an overflow of both men and women into the gallery, and a number of people were obliged to content themselves with standing room. In order that those who attend may be properly accommodated the ruling has been made that children unattended by their parents or guardians will not be admitted to the lectures to follow and several hundred chairs will be placed on the stage.

This evening the Rev. Walsh will speak on the "Christian Home and Divorce," a topic which has awakened great interest and much discussion since the recent performance in this city of the drama, "The Divorce Question." His address last evening was in part:

"The whole history of Jesus Christ is marked by mercy and compassion for suffering humanity. From the moment of His incarnation till the hour of His death, every thought and word and act of His Divine life was directed toward the alleviation of the ills and miseries of fallen man. The principal object of Christ's mission was to release the soul from the bonds of sin. The very name of Jesus indicates this important truth. 'Thou shalt call His name, Jesus,' says the angel, 'for He shall save His people from their sins.' Matt. 1:21.

"For the son of man is come to save that which was lost."—Matt. 18:11. They that are in health need not a physician, but they that are ill. For I am not come to call the just, but sinners.—Matt. 9:12. 1. Tim 1:15. "Sin is the conscious or a direct violation and contempt of the moral order established by the Divine Will, and a turning from God, our ultimate end, to find our satisfaction in creatures. We cannot deny the awful reality of sin. We see it all about us.

The question for our consideration tonight is this: Did our Blessed Lord leaving behind Him any means whereby we might be absolutely sure that our sins are forgiven? Did He leave behind Him the ministry of reconciliation and all things are of God who hath reconciled us to Himself by Jesus Christ and hath given us the ministry of reconciliation."—11. Cor. 5:18. Many of them who believed came confessing and declaring their deeds.—Acts 19:18.

"If we confess our sins, He is faithful and just to forgive us our sins and to cleanse us from all unrighteousness."—1 John 1:9.

"That Christ left the power behind Him to forgive sin—there can be no doubt. We read in John 22 Chapter 21:22.

"Peace be to you—as the Father hath sent me, I also send you—receive ye the Holy Ghost; those sins ye shall forgive they are forgiven them, and whose sins ye shall retain, they are retained."

The Rev. Father Walsh went on to show how this text logically containing the power to forgive sins, when sin is manifested. He showed from the earliest centuries confession was practical in the early Christian sect—and said: "We find this practiced among many Episcopalians today." Father Walsh quoted from the Lutheran catechism to prove the Lutheran ministers claim to have the power to forgive sin.

## NO INDIGESTION, GAS OR A SOUR STOMACH

"Pape's Diapensin" Stops Fermentation and Makes Your Upset Stomach Feel Fine in Five Minutes.

Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, if sour, gassy and upset, and what you just eat has fermented into stubborn lumps; your head dizzy and aches; belch gases and acid and eructate undigested food; breath foul, tongue coated—just take a little Diapensin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapensin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapensin which costs only fifty cents for a large case at drug stores. It's a truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

CHICAGO TRIBUNE STARS—NO. 6.

**Dr. W.A. Evans' HOW TO KEEP WELL**

Appearing in each issue of The Chicago Sunday Tribune

For years The Tribune has declined annually \$200,000 or more which it could have if it would print patent medicine and disreputable medical advertising. This was a matter of conscience—a dislike for dirty dollars. Duty pointed out the fact that it was not only right to stop people from spending money for nostrums generally useless and oftentimes dangerous, but it was essential that we do what we could to keep them in health. So we engaged Dr. Evans, formerly Health Commissioner of the City of Chicago, and President of the American Medical Association, to act as Health Editor. He does not prescribe but daily he talks on the text "How to Keep Well." This was an innovation which has been followed by several metropolitan papers and today the medical papers of the country are crusading for "Medical Editors" in daily newspapers.

Among the many different features appearing in the eight big sections of The Chicago Sunday Tribune of February 16 will be one entitled

## Babies That Support Families

showing how many parents make profit from their beautiful children. A revelation to most people.

Every issue of The Chicago Sunday Tribune proves that it stands supreme and alone at the top of the world's Sunday newspapers. Twenty world-famed star writers and artists are found in every issue and its list of special feature writers is not and can not be duplicated by any other Sunday paper.

## A Six Hundred Page Magazine for 5c

The contents of every copy of The Sunday Tribune, if made up in standard magazine proportions, would make a budget of over 600 pages. Think of it! A 600 page magazine for 5c.

**A Dream of Beauty Became a Nightmare**—A sprightly story showing how the high cost of the chorus girl has the theatrical manager guessing.

**She Will Stay Beautiful**—Youth and loveliness Mrs. John Jacob Astor has—she means to keep them. This tells you her elaborate plans.

**The Truth About George Washington**—Was "the Father of His Country" all he has been painted? Students of history WHO KNOW tell all they know about him. It is good reading.

**Paris Styles for Spring**—A beautifully illustrated page by Mary Buel, the woman who knows all about Paris gowns, hats and wraps.

**Marion Harland** has a half page on "Keeping Clean versus Getting Clean"—also her usual half page, "The Helping Hand."

**Boarding House Etiquette**—An interesting page by Laura Jean Libbey, giving advice and love counsel to young women who must earn their own living.

**Bedlam in Art**—Here's Some Show: All the Faddists and Extremists of the world gathered in New York—the echo will be heard for miles and miles and miles.

**Beautiful Shoulders**—A page by Lillian Russell, giving many beauty secrets.

**A Four Page Comic Supplement**—All the children want The Tribune "Funnies." Old Doc Yak is "getting the money."

## A Medical Book Free

By Dr. N. A. Goddard

Modern Methods of Treating Chronic Diseases without Operation, has just come from the pen of Dr. Goddard the Milwaukee Specialist and is one of the most interesting as well as instructive little books the doctor has ever written.

If you are a sufferer from Appendicitis, Rupture, Gall Stones, Colic, Gout or Chronic diseases of a private nature, you should avail yourself of this valuable little book free simply for the asking. A postal will bring it to you, in a plain wrapper. Many so-called surgical diseases, have been proven to be curable by medical treatment, and safely more easily and cheaply by modern medical methods than was believed possible a few years ago.

After you have read this little book, you can consult Dr. Goddard on his monthly visits to Janesville, free of knowing that you have secured the expert opinion of a reputable specialist in these matters. If you have been advised to submit to an operation, surely do not fail to consult him before undergoing such an operation. His advice may save you many weeks of suffering, loss of time and expense, possibly your life. Dr. Goddard will be at the Myers Hotel, Janesville, Tuesday, Feb. 25th, and he makes no charges for a friendly visit, hours 9 a. m. to 4 p. m.

Chinese Memorial Arches. The pious, or memorial arches of China, says Frederick McCormick, in the National Geographic Magazine, rival the pagodas in grace, beauty and numbers. Many of them are erected to commemorate the devotion of virtuous widows who refuse to remarry. The fabled phoenix, which never changes its mate, is prominent in the decoration of these arches.
